

Placement Drive organised at a Skill Development Centre in Jaipur, Rajasthan

With the aim to provide job opportunities to trained students of Vocational Training Centres, Development Alternatives organised a placement drive on 23 November 2021 at a Skill Development Centre in Jaipur, Rajasthan. This was conducted under the Skills to Livelihood Project supported by HDB Financial Services. The project aims to extend skills training and livelihoods support to lesser – privileged youth and women by imparting employment-linked appropriate training so as to make them employment-ready.

A placement counselling session and mock interview session were conducted before the drive to prepare students for the actual interview. 32 trained students participated in the placement drive out of which 16 were selected on the day itself for the Executive Sales Associate job role.

Placement drives for trained students and also for external candidates will be organised every month at our vocational training centres in Jaipur and Noida.

All the activities at Vocational Training Centres such as Registration, Counselling session, training and Interviews are conducted with respect to mandatory COVID-19 precautions. Hand Sanitiser dispensers have been installed, maintaining social distancing and wearing masks are mandatory at all the time inside the Vocational Training Centres. All the students have also been provided face masks and hand sanitizers with their training kit.
