

Inauguration of Skill Development Training Centres in Gurgaon

Skill Development Training Centres offering courses on Sewing Machine Operator (SMO) and Assistant Beauty Therapist (ABT), were launched on 15th August, 2018, at village Pathredi, Manesar, Gurgaon, under the project 'Unnati... Aao Sanwaarein Apna Kal'. The project, initiated by Development Alternatives (DA) and Honda Motorcycle and Scooter India Pvt. Ltd., aims to identify and support girls who are talented and aspire to achieve something inspirational in their life; but due to lack of resources and family support, they are unable to move forward in life. The project will support these girls and work towards transforming them as change agents for their community by becoming role models for one and many.

The centres have already enrolled 20 candidates for the SMO course and 15 candidates for the ABT course. Key persons of the village were present for the inauguration ceremony. They motivated the girls to come forward for such programmes and participate actively. They further added that programmes like these, help in empowering women of the society and provide them a social status and a way to improve their life by becoming self-dependent.
