

World Youth Skills Day Celebration

Glimpses from the skill training awareness programme

On July 15, 2024, we observed World Youth Skills Day by organising a skill training awareness program in Shastri Nagar, Jaipur. This event signified a major milestone, underlining our commitment to equipping youth with vital skills for a promising future.

Our engagement with underprivileged communities yielded remarkable results as we shared detailed insights about our skill training program with the local youth. The response was overwhelmingly positive, with numerous young individuals expressing a keen interest in learning more about our skill-to-livelihood program. Parents were equally enthusiastic and supportive, recognising the potential impact on their children's futures. Our team connected with 222 youth in the community, forging substantial connections and offering them new opportunities.

In addition, 72 youth from our current batches actively participated in the World Youth Skills Day celebration, demonstrating the collective effort to uplift and empower the youth in Nahri ka Naka, Shastri Nagar.

As part of the celebration, we also hosted an alumni meet at the same venue, where former students from the community shared their experiences of training and placement. These alumni, trained in previous phases of the Skills to Livelihood project supported by HDB Financial Services, provided inspiration and tangible proof of the program's success. Their journeys from training to securing respectable positions in various fields serve as a beacon of hope and motivation for the current and future batches.

In conclusion, the celebration was not just about acknowledging our achievements but also about renewing our dedication to creating brighter futures for the youth of Shastri Nagar and other less privileged communities. We remain steadfast in our mission of skill development and economic empowerment, ensuring a better future for all.
